

AWS Infrastructure Audit Report

Account	[REDACTED]
Region	us-west-2
Scan Date	2026-06-08 20:47 UTC
Total Findings	7
Overall Risk	CRITICAL RISK

Executive Summary

The EC2 audit of region **us-west-2** identified **7 findings** across the following categories: 1 untagged instance, 4 instances with public IPs and 2 overly permissive security group rules. **1 critical finding require immediate remediation — open SSH or RDP access from the internet represents active attack surface. Full details and remediation steps are provided in the findings section below.**

Findings Summary

Severity	Check	Resource ID	Issue
CRITICAL	Permissive Security Group	sg-0ec0214ee578e8131	Allows world access on port 22 (SG: audit-test-open-sg)
HIGH	Untagged Instance	i-087f239e7f41cb70c	Missing required tags: Name, Environment, Owner
HIGH	Permissive Security Group	sg-0ec0214ee578e8131	Allows world access on port 443 (SG: audit-test-open-sg)
MEDIUM	Public IP Assigned	i-0156c55ec520a4584	Instance has public IP: [REDACTED]
MEDIUM	Public IP Assigned	i-087f239e7f41cb70c	Instance has public IP: [REDACTED]
MEDIUM	Public IP Assigned	i-04b0e861acf481674	Instance has public IP: [REDACTED]
MEDIUM	Public IP Assigned	i-0f3a1db27e7e37eeb	Instance has public IP: [REDACTED]

Finding Details

#1 — Permissive Security Group **CRITICAL**

Resource	sg-0ec0214ee578e8131
Issue	Allows world access on port 22 (SG: audit-test-open-sg)
Recommendation	Restrict CIDR to known IPs or use security group references

#2 — Untagged Instance **HIGH**

Resource	i-087f239e7f41cb70c
Issue	Missing required tags: Name, Environment, Owner
Recommendation	Add missing tags for compliance and cost tracking

#3 — Permissive Security Group **HIGH**

Resource	sg-0ec0214ee578e8131
Issue	Allows world access on port 443 (SG: audit-test-open-sg)
Recommendation	Restrict CIDR to known IPs or use security group references

#4 — Public IP Assigned **MEDIUM**

Resource	i-0156c55ec520a4584
Issue	Instance has public IP: [REDACTED]
Recommendation	Review if public IP is necessary; consider NAT or bastion host

#5 — Public IP Assigned **MEDIUM**

Resource	i-087f239e7f41cb70c
Issue	Instance has public IP: [REDACTED]
Recommendation	Review if public IP is necessary; consider NAT or bastion host

#6 — Public IP Assigned **MEDIUM**

Resource	i-04b0e861acf481674
Issue	Instance has public IP: [REDACTED]
Recommendation	Review if public IP is necessary; consider NAT or bastion host

#7 — Public IP Assigned **MEDIUM**

i-0f3a1db27e7e37eeb

Resource

Issue

Instance has public IP: [REDACTED]

Recommendation

Review if public IP is necessary; consider NAT or bastion host
